OBJECTIVE

Highly motivated 4th year student in Artificial Intelligence & Data Science with a strong foundation in programming (Python, Java) and web development with hands-on experience in full-stack development and data science projects. Seeking a Software Engineer role to leverage skills in MEAN stack, data analysis, and blockchain, contributing to innovative technology solutions.

EDUCATION

- BE, Methodist college of engineering and technology, Hyderabad [2021-2025]
- Intermediate, Narayana junior College, Hyderabad [2019-2021]
- SSC, Royal Embassy High School, Hyderabad [2019]

SKILLS

- Full Stack Development (MEAN Stack): Proficient in developing web applications using
 - MongoDB
 - Express.js
 - Angular
 - Node.js
- Data Science with Python: Skilled in data analysis, visualization, and predictive modeling using Python libraries.
- Blockchain: Basic knowledge of blockchain fundamentals and applications in secure, decentralized systems.
- Prompt Engineering: Experienced in crafting effective prompts for AI applications.

PROJECTS

1. SDHUB Management Portal [2024]

Developed a comprehensive management portal for SDHUB, featuring dashboards for students, teaching staff, and administrative insights, ensuring efficient data management.

2. Luminate Web Solutions [2024]

Designed and implemented professional-grade websites for clients, emphasizing responsiveness & design.

3. Mini E-Commerce Store [2024]

Created a user-friendly e-commerce platform supporting essential functionalities like product browsing, cart management, and secure checkout.

CERTIFICATIONS

- Training in Full Stack Development (MEAN Stack)
- Blockchain Technology
- AI workshops

ADDITIONAL INFORMATION

- Languages Known: English, Hindi ,Urdu
- Participated in AI-related events, NSE quizzes, and academic projects.
